Science week

The children have really enjoyed Science week in school. On Wednesday we had a special investigations morning, working in mixed age groups. The children applied all their maths skills in an investigation involving rolling tins, designed bubble wands and created bubble mixture. They also worked in groups to design bug houses which will be put out at different places in the grounds – we will see who makes their home in them! Both the pictures are from Science morning.

Robotics

Thank you to BAE systems for a really interesting Robotics workshop for Years 4-6 on Tuesday. The children were able to build on learning done in school in computing. Our children are really fortunate that being in a small school, they have this experience more than once and the graduates adapt the programme to challenge the children who are more advanced.

Sports successes

Once again our teams have done really well in the Cluster sports events. Please see the face book page for photos. Thank you very much all those parents who help with transport and support the teams and to Mrs Morris for all the organisation that goes into it.

End of topic assembly for Years 1&2 and Mrs Curwen's class

Both classes have been learning about 'The Americas' this term. They would like to invite you to an end of topic presentation of their work, next Friday 23rd March at 2.30pm.

Easter raffle

Please support the FOLS Easter raffle by buying the tickets. There are extra books available from the office if you can think of anywhere that you could sell them. The Choco Lori egg and the sweets are now on display in the entrance hall

for you to see.

PTO

Easter egg competition

16th March 2018

We always have absolutely amazingly creative designs for our Easter egg design competition. This year we will again be having 2 prizes for each class; one for the most beautifully decorated egg and one for the most imaginative design. Please bring your eggs into the school hall on the last day of term, Thursday 29th March. We will also have raffle prizes available for collection in the morning. Parents are welcome to come in and view the egg designs.

Easter service and crafts in school

Following the egg judging, Jenny Leahy will be doing Easter craft with the children followed by our Easter collective worship including the puppet show of the Easter story. Parents are invited to stay and join in the craft and watch the puppets. Tea, coffee and hot cross buns will be available for a donation.

Friends of Lindale meeting

The next FOLS meeting will be Wednesday 18th April at 7.30pm at the Royal Oak. Please come along and support the planning of future events.

Please see the website calendar for dates.

Best wishes

Sarah Coleman
